

# PEZZIMENTI TUNNELBORE

Specialising in: **Highly Accurate, Laser-Guided Microtunnels.**

## Spring Farm

Sewering of a new release area required the microtunnelling of Ø750mm Concrete Butt Jointed Jacking pipes. The drive lengths were 82 and 100m. The standard vacuum extraction system was used in the very wet clay. After the pipes were jacked, Ø600 Sewermax pipes were inserted and the annulus grouted.

Client / Head Contractor

**Mystold**

Location

**Spring Farm, NSW**

Length

**Bore 1. 82m**

**Bore 2. 100m**
